Alchemy and Innocents

WORKS BY ANASTASIA TRAINA

May 5 through June 25

Anastasia Traina's "Alchemy and Innocents" illuminates the botanical world and its hidden creatures by building a Nouveau-Victorian landscape inhabited by magical insects and fauna placed into realistic botanic backdrops. By embracing watercolor, graphite, colored pencil, hand-pressed paper, kiln cast glass, and pate de verre, the work seeks to excite and inspire its audiences to rediscover the efflorescing beauty already around them — giving us an even more profound sense of wonder and appreciation for the extraordinary living within our own little corner.
